About Me:

I am a beginner FRONTEND DEVELOPER, I want to get into the company of professionals to accelerate the study of technologies necessary to create a product that would benefit people.

At the moment I HAVE EXPERIENCE with REACT, REDUX, EXPRESS, MONGODB.

Experience with REACT, REDUX gained through self-learning.

I got my experience with EXPRESS, MONGODB during a two-week camp from "Code Generation Software".

I WORK AS A FREELANSER doing orders related to REACT, REDUX, JS technologies, and website layout.
